**REMARKS**

Claims 31-52 were pending in this application. Claims 49-52 have been cancelled, without prejudice or disclaimer. Claims 31-48 have been allowed. No new claims are added. Thus, this application is in condition for allowance.

Rejection Under 35 U.S.C. § 102

Claim 49 has been rejected under 35 U.S.C. § 102(b) as being anticipated by the teaching of Jackson in U.S. Patent No. 5,236,602 (Jackson).

Applicant disagrees that Jackson teaches a water system comprising all the limitations recited in independent claim 49. Nonetheless, to further prosecution of this application, Applicant has cancelled claim 49, without prejudice or disclaimer, thereby rendering the rejection moot.

Accordingly, Applicant requests reconsideration and withdrawal of the rejection under 35 U.S.C. § 102.

Rejections Under 35 U.S.C. § 103

Claims 50-52 have been rejected under 35 U.S.C. § 103(a) as being unpatentable over the teaching of Jackson in view of the teaching of Gonzalez-Martin et al. in U.S. Patent No. 5,779,912 (Gonzalez-Martin et al.)

Applicant also disagrees that dependent claims 50-52 would have been obvious over the combined teachings of Jackson and Gonzalez-Martin et al. Again, there is no *prima facie* case of obviousness because none of the references provide any teaching, suggestion, or motivation to combine or modify the respective teachings as proposed. Further, even if the teachings of the references could have been combined, the proposed combination would not result in the invention as claimed. Nonetheless, to facilitate prosecution of this application, Applicant has cancelled dependent claims 50-52, without prejudice or disclaimer, thus rendering rejection moot.

Accordingly, Applicant requests reconsideration and withdrawal of the rejection under 35 U.S.C. § 103.
